

New Pipe Vent Shield Offers Simple, Cost-Effective Alternative To Pipe Flange Repair

Pipe Vent Shield is a revolutionary new product that can repair a roof leak in a fraction of the amount of time needed for pipe flange repair.

OGDENSBURG, NJ, USA, October 28, 2014 /EINPresswire.com/ -- Costly roof and pipe flange repair may be a thing of the past with [Pipe Vent Shield](#). The revolutionary new product by Sterling Hill Innovations, LLC is designed to address the issue of leaking pipe flanges, which are a primary cause of water damage in the home.

"Worn out pipe flanges are the most common cause of roof leaks in homes today and every home has at least one, but up to four, pipe flanges. Repairing leaking flanges used to mean hiring a roofer to come out to fix it. They'd rip off some shingles and replace the entire pipe flange. The Pipe Vent Shield eliminates the need for this type of replacement in many cases and it can be done by homeowners themselves," said James Lame, Inventor of Pipe Vent Shield (www.pipeventshield.com).

The Pipe Vent Shield is approximately 10"W x 11"L x 4"H. It tapers up to a conical 4 3/4" contoured top with a 1 1/8" hole to accommodate the vent pipe. This ensures complete coverage of the rotted flange for added protection from leaks. The device is made from durable 70 Durometer EPDM Rubber and is designed to fit 1", 1.5", 2", 3" and 4" vent pipes. To fix the [roof leak](#), the Pipe Vent Shield is slipped over the worn pipe flange, where it sits flush against the roofing material. This effectively seals the flange from the elements and fixes the [leaky roof](#).

"The Pipe Vent Shield is one piece and doesn't require any special tools to install. There is nothing to remove and no shingles to replace. The best part is that Pipe Vent Shield costs a fraction of what hiring a roofer would and the outcome is the same," said Lame.

The Pipe Vent Shield is available for \$24.95 and comes with a 3-year manufacturer's guarantee. To learn more about Pipe Vent Shield visit www.pipeventshield.com.

About Sterling Hill Innovations, LLC:

Established in 2011 by James Lame, Sterling Hill Innovations, LLC is a home improvement products company with an emphasis on roofing related products and repair solutions.
