

HTML5 Free Flipbook Creator for Self Publishers Available at Pubhtml5.com

One can create an interactive experience readers and customers will love easily & quickly

HONG KONG, HONG KONG, CHINA, October 30, 2014 /EINPresswire.com/ -- The business of self-publishing has become more in-demand and demanding than ever before. Consumers expect to have content from their favorite writers faster than ever before and writers are expected to market and deliver more sophisticated products than ever before. Keeping up with a competitive market can be difficult, but now turning content into an animated HTML5 publication for using on desktops, tablets and mobile devices is simple.

PUB HTML5 is a great [HTML5 free flipbook creator](#) solution for those wanting to self-publish online or create business presentations, product catalogs, brochures, magazines, ebooks or white papers. The software turns pdf documents into an HTML5 flip books – instant animation! URLs for documents can be shared easily through social networks or embedded directly on websites. Either way, website traffic will

soar with this dynamic content and keep readers coming back for more.

Using PUB HTML5 is ideal for presentations because video and audio can be easily inserted into the publication, guiding the reader through the content with commentary, examples or even discussion questions. Imagine creating an ebook and supplying the discussion questions in the author's own voice. These are the kind of details that make PUB HTML5 documents extraordinary.

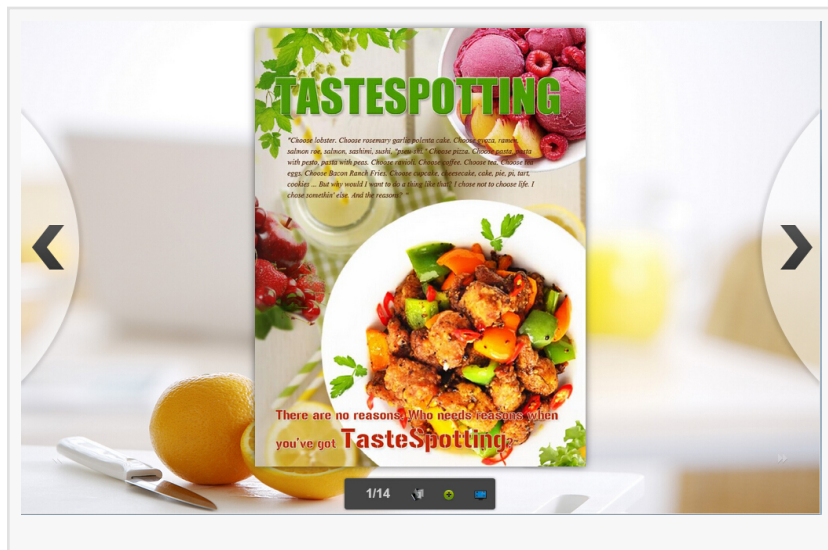

PUB HTML5 offers three tiers of service ranging from a free edition to full enterprise service. Consistency across all collateral and platforms is one of the most important rules of marketing. With PUB HTML5, users can choose to use pre-designed templates or customize publications to be in line with other marketing materials and company brand. Creating a series of publications that will keep readers interested in products is easy to accomplish with PUB HTML5. Besides, users can [make flip](#)

[books online](#) to be accessible from anywhere at anytime.
