

Global distortion of truth exposed about the war on terrorism

New global thriller, Twilight Visitor, reveals the distortion of truths which are being used to portray a dangerous world and to justify the machinery of war.

MöLNDAL, -----, SWEDEN, October 31, 2014 /EINPresswire.com/ -- [Twilight Visitor](#), released through British publishing house, Netherworld Books, exposes global distortion of the truth surrounding the war on terrorism since 9/11; the hidden state of nuclear armaments still in existence, and much more. A global thriller which strikes a chord, revealing that the constant thrashing from media and government circles about the “dangers facing us in our world today” are not what they would appear to be and it raises many social and philosophical questions – all while delivering [an impactful and adrenaline-pumping](#) thrill-ride.

Book-Reviewer.com says this about Twilight Visitor...

“The story races along with pace of a Tom Clancy thriller but the depth of the plot is rich in

complexities philosophical ideas. Laplaine has a good descriptive style that never interferes with the flow of the narrative as he builds highly credible scenarios that give the reader a true feeling that this is all too close for comfort. Highly recommended for readers who like fast paced thrillers but with an ingenious twist.”
