

THIS DISTINCTIVE COMPUTER MOUSE IS GUARANTEED TO IMPROVE USER EXPERIENCE IN TERMS OF COMFORT AND EVEN WARMTH

ANDONG, GYEONGBUK, SOUTH KOREA, November 3, 2014

/EINPresswire.com/ -- [TORITECH](http://www.toritech.co.kr), a Korean based innovative company has made efforts to develop IT devices and computer peripherals including computer mice and keyboards with ISO 9001:2008 certification since its establishment in 2011.

TORITECH's products now in patent pending and registered have been developed with the company's objectives to offer great convenience to people in the world and to become a global company in the global computer peripheral market with seamless and continuous R&D. Based on its specialized and accumulated technologies, TORITECH is carrying out global business and working on various projects to meet global customer's demands.

"We plan to expand our business into global market and year 2015 will be the good opportunity for us to implement our plans," said Yang, Seong Mok, CEO of TORITECH. He added, "Our continued commitment and dedication to R&D are necessary to ensure the successful deployment of our global business."

The company's main products include as following;

TR-2001: An ergonomic mouse designed to improve user experience by keeping him or her wrist at a 45-degree angle.

TR-2002: A user friendly mouse to maintain some warmth within the mouse even able to control temperature.

TR-3001: A wireless mouse to keep user's wrist at a 45-degree angle for user's more comfortable and convenient operation condition.

In addition, TORITECH is to introduce more advanced products including an integrated keyboard consisting of both mouse and keyboard.
