

Registrations now open for an exclusive, invitation-only ISO27001 introductory workshop

ELY, UK, November 10, 2014 /EINPresswire.com/ -- [IT Governance](#), the leading provider of cyber security and ISO27001 expertise, will hold an exclusive, invitation-only online workshop called 'Cyber security fundamentals: an introduction to ISO27001' on 27 November 2014 at 15:30 GMT.

To register your interest, visit www.itgovernance.co.uk/cyber-security-fundamentals-workshop.aspx.

Presented by globally recognised authorities on ISO27001 Alan Calder and Steve Watkins, the workshop is designed for C-level information security professionals interested in obtaining more information about embarking on ISO27001 for the first time.

Implementing an information security management system (ISMS) that complies with the requirements of the international information security management standard ISO27001 can be a complex undertaking that involves the whole organisation. Yet ISO27001 is recognised as best practice for protecting organisational information assets, providing customer assurance, and complying with contractual obligations and regulatory compliance requirements.

With the proliferation of cyber attacks and the increasing cost of data breaches, senior decision-makers cannot ignore the importance of managing information security.

This is the first time IT Governance is offering the international community the opportunity to participate in a live online workshop with the authors of the bestselling book IT Governance – An International Guide to Data Security and ISO27001/ISO2700.

Attendance at the online 'Cyber security fundamentals: an introduction to ISO27001' workshop is by invitation only. All applications for this event are subject to review and approval by IT Governance.

Individuals can find more information about the workshop and register their interest at www.itgovernance.co.uk/cyber-security-fundamentals-workshop.aspx.

Registration closes on 17 November 2014. You will be provided with joining instructions once your registration has been processed and accepted.
