

Informa Life Sciences Releases 2015 Conference Schedule

*For those interested in
Biopharmaceutical Production*

LONDON, UK, November 10, 2014
/EINPresswire.com/ -- [Informa Life Sciences](#) today announced its events schedule for their [2015 Biopharmaceutical Production](#) conference series.

James Miguel, Sales Director for the conference series explained “with so much activity happening today within the bio therapeutic community we are pleased to put forward our complete 2015 biopharmaceutical event schedule. We believe that the conferences we have prepared tackle the key challenges being faced today within the industry and they

offer an ideal platform for any biopharmaceutical professional wanting to meet and share information on the latest innovations, techniques and strategies being used to develop, scale-up, and manufacture biotherapeutics and biodiagnostics.”

Conference Director, Daniel Barry adds “the bio therapeutic community is forever growing and it can be hard to get the top minds in the same room and so we hope to help through our conferences. For example we are fortunate to have; Dr Anthony Mire-Sluis (Amgen), Dr Rahul Singhvi (Takeda), Dr Niklas Engler (Roche), Dr Jens Vogel (Boehringer Ingelheim), Dr Roman Necina (Baxter), Dr Craig Smith (Thermofisher) and Dr Guenter Jagschies (GE Healthcare) all agreeing to host sessions at the 2015 [BPI Summit](#)”.
