

Analytica Bio-Energy Corp. enters Phase Two with the Environmental Protection Bureau, (EPA) Liaoning Province, China.

TAIPEI, TAIWAN, November 17, 2014 /EINPresswire.com/ -- Analytica Bio-Energy Corp. enters Phase Two with the Environmental Protection Bureau, (EPA) Liaoning Province, China.

TAIPEI, TAIWAN, November 17, 2014 – Analytica Bio-Energy, Corp. (ABEC OTCQB) (The Company) is pleased to announce that Analytica's joined in full participation in the government mandated and comprehensive wastewatermanagement program in Shenyang. The EPA set a standard to achieve of 10ppm on all contaminants. Offsite test results indicated Analytica to do test on site.

Analytica assembled a prototype of their patented unit and installed the unit to demonstrate the complex system that will provide the test results. After three days of intensified tests Analytica returned a result of 0.3ppm, an improvement of 97 % lower than standard expectations. All EPA members attending the testing were amazed and satisfied.

Over the next ninety (90) days Analytica will work in close cooperation with the Municipal Environmental Protection Bureau to determine the scope, plus all technical aspects related to the project. The project will comply with the new legislation now in effect throughout China to control wastewater disposal. As the technical data derived from installation of the prototype that is operational in the pilot plant is completed, and all results are positive the government plans to aggressively promote this technology to the national level which will cover all of China. Analytica will then design additional treatment facilities for other cities across the country.

“This is a big opportunity for Analytica to take the lead position to develop wastewater treatment facilities for China and is an acknowledgement by the government of Analytica's leadership role in the industry and of its patented, cutting edge technology.

The EPA requested Analytica write the proposal of one hundred million yuan (16.3 million Plus USD) required or needed to eliminate the ammonia wastewater problems, they will take the report and their recommendations to Changtu and place with the Magistrate, after discussions will be ready to sign contract.
