

ToolHound Listed Among Top 20 Most Promising Technology Providers for Construction

ToolHound tool and equipment management solution delivers outstanding efficiency for greater productivity and cost savings

ST. ALBERT, ALBERTA, CANADA, November 18, 2014 /EINPresswire.com/ -- [ToolHound Inc.](#), a leading global supplier of tool tracking systems, announced that [CIO Review](#) magazine has named ToolHound one of the Top 20 Most Promising Tech Solution Providers for the Construction Industry.

ToolHound is [featured](#) in the October 2014 edition of CIO Review magazine as part of this prestigious list, which highlights the best technology vendors serving construction professionals throughout U.S. The CIO Review editorial board and a panel of distinguished C-level executives chose the top 20 companies to showcase extensive business knowledge and innovative strategies for real-world construction solutions.

"ToolHound has been on our radar for some time now for stirring a revolution in the construction space, and we are happy to showcase them this year due to their continuing excellence in delivering top-notch technology-driven solutions," said Harvi Sachar, Publisher and Founder, CIO Review.

"We are pleased to be recognized among the top 20 most promising technology providers for the construction industry," said Dean Perry, president of ToolHound. "The ToolHound 5 tool and equipment management solution is a vital resource for the construction professional, helping to increase efficiency and productivity, thereby saving time and money without impacting quality."

About ToolHound

Since 1985, ToolHound systems have been deployed by companies of all sizes across a variety of industries, including construction, power generation, chemical processing, mining and jobsite tool and equipment services. Specializing in personalized technical support with on-site training and installation expertise, ToolHound offers a comprehensive portfolio of tool and equipment management solutions including Cloud hosting and customer controlled hosting with ToolHound 5 OnSite and SecureCrib™ featuring wireless, RFID and barcode technology.
