

# DAEYANG MEDICAL RELEASES A MEDICAL DEVICE TO HIGHLY IMPROVE SKINCARE THERAPY

WONJU, SOUTH KOREA, November 24, 2014 /EINPresswire.com/ -- Daeyang Medical Co., Ltd. (<http://www.daeyangmed.com>) which has world-class technology in field of beauty-aesthetic device has developed "Cellthion", which is the most effective to patients as well as operators due to exchanging cartridges readily depending on the treatment area.

Having introduced 'HIFU (High Intensity Focused Ultrasound)' technology after Radio Frequency to beauty-aesthetic treatment, Daeyang Medical Co., Ltd. has developed "Cellthion" which is possible to treat to various areas by skin depth with easily cartridges exchange. Ultrasound targets the specific layer and then makes it lifting.

If HIFU is applied to targeting area, it induces vibration of the element formation in the area and then heat is made by friction. Protein with heat has the property of coagulation. Protein in losing tissue is coagulated by its feature, getting smaller and then the effect of tightening and lifting. HIFU of Cellthion transfers its energy to skin dermis, even SMAS layer so that wrinkles and drooped skin can be improved without any incision and surgery. It also makes double-chin, face-line, eyebrow, corner of mouth, cheek-line, nasolabial line, and etc. better. Cellthion's user interface, especially, is programmed with consideration for both operators and patients in order to classify the treatment area as well as select the area correctly and get the maximizing effect.

"Inducing the regeneration of collagen and elastin fiber with applying heat to facial muscles, no damage on the surface, Cellthion is very sophisticated device with consideration for both operators and patients. For example, to exchange cartridges is very readily and simply and it's possible to select the treatment area using interface designed by images," said a sales manager of Daeyang Medical.

Daeyang Medical Co., Ltd. is well known as medical manufacturing company in the world, having developed steady new products. Daeyang Medical Co., Ltd. receives already credit for technology and effect about products from European countries, and Cellthion will be another major brand of Daeyang Medical Co., Ltd.
