

# Plastic Surgery Boom Courtesy Of Holiday Season Travel Mishaps

---

*Vacationers Return to New York and NYC Doctor for Corrective Procedures Following Bad Surgery Overseas*

NEW YORK, NEW YORK, USA, November 24, 2014 /EINPresswire.com/ -- Nationally recognized New York City Plastic Surgeon, [Dr. Douglas A. Taranow](#) says he expects there to be more Americans having plastic surgery while on vacation in foreign countries during this holiday season.

He also believes there will be a multitude of returning vacationers seeking corrective procedures after receiving horrible and even life-threatening results.

Dr. Taranow has personally witnessed the growing numbers of these bargain-basement plastic surgery victims because many of them end up in his office. In recent years, there has been a growing mid-to-late January bounce in Taranow's practice from these patients.

Dr. Taranow, a board-certified plastic surgeon, sternly warns that anyone considering plastic surgery should thoroughly review a physician's qualifications before going under the knife.

Patients who elect to have plastic surgery internationally often seek Dr. Taranow's expertise to correct the result. Thanksgiving traditionally marks the official start to the 2014 holiday travel season. Dr. Taranow will encounter numerous patients who had incorrect and unsafe breast augmentations, tummy tucks, Brazilian Butt lifts and he will need to correct the mistakes of other doctors or practitioners.

Dr. Taranow is available for live in-studio or remote interviews as well, as by phone to discuss this rising trend.
