/EINPresswire.com/ -- EaseUS Software(
www.easeus.com), a world's leading data backup, data recovery and storage management solutions provider, recently updates its [data recovery software](#) - EaseUS Data Recovery Wizard to 8.6 version. The new version of the software added support for Italian, improved user interface and enhanced data recovery capacity.

EaseUS updates its data recovery software to add support for Italian

EaseUS Data Recovery Wizard is a professional data recovery software that built to recover lost data from all kinds of storage media such as hard drives, USBs, and SD Cards, digital cameras. The software has a free version and Pro version. The free version is known as EaseUS Data Recovery Wizard Free. The [free data recovery software](#) allows users to recover up to 2GB data. And both of the two versions can be applied to various data loss cases, for example accidental formatting, deletion, virus attack, factory settings reset or some severe forms of corruption.

"We've successfully introduced our data recovery software to users for many years. Now we have millions of users from over 180 countries and areas. To make sure that our users from different countries can rescue their data easily and successfully, we built our data recovery products as multilingual software. The previous version has offered full support for English, Japanese, French, German, Spain, Italy and Portugal. This time we announced the new updated version to add support for Italian. And in the future we will try to add supports for more other languages," said Benjamin Huang, the PM of EaseUS Software.
