

# Kicker Boot Clips, Bling your Boots!

WAUKESHA, WISCONSIN, UNITED STATES, December 25, 2014

[/EINPresswire.com/](http://EINPresswire.com/) -- Sometimes the most amazing inventions are the simple ones – the ones that make you want to smack your forehead with the heel of your hand and say, “I should have thought of that!” Ralinda Howard has come up with a nifty way to individualize your look and to make your favorite boots look even better than ever. Her [Kicker Boot Clips](#) enable users to raid their own jewelry boxes to create a unique look for boots.

These can be absolutely any kind of boot. There are four different styles of clip: the roll necklace clip, the earring clip, the magnet style necklace clip and the horseshoe clip. The horseshoe clip is intended for use with cowboy boots, or boots that have a pull strap on the outside top edge to help wearers pull on the boot. The roll necklace clip is designed to slip over the top of a dress boot on the inside edge. The necklace is then dropped over the top of the boot with the clip side lodging securely in the clip, and the pretty side draping around the outer side of the boot – where it will be readily visible. The earring clip is designed to slip over the outside edge of the top, allowing earrings fastened to it to

dangle down the side of the boot. The magnet clip works much like the roll necklace clip, except that it has two super strong magnets that can be used to hold the chain of a pendant style necklace. This creates more of an informal, slightly less flashy look.

The horseshoe clips slip through the pull straps on a boot. Earrings can be strung directly on the clasp bar that goes across the back of the horseshoe. But the regular clips – the roll necklace clip, the earring clip and the magnet clip – can also be slipped over the crossbar of the horseshoe clips. In this way you can dress up your cowboy boots, or even transform a sturdy pair of hiking boots.

The real value of these clips is to allow you to use your jewelry to create an individualized look to any outfit that works better than ordinary boot anklets. The problem with boot anklets is that the chains

are draped around a very active joint, making it easy to break them. The boot clips hold the jewelry securely, without damaging the original chains or fastenings – just in case you should want to wear it in the ordinary way at some other time. Wearing your own jewelry, you have no worries about whether or not someone is going to show up wearing exactly the same thing you are wearing. If you have been collecting personal ornamentation for a long time, you have an exceptionally good chance of creating a style that cannot be duplicated by anyone else.

Ralinda Howard has created an exceptionally simple [Kickstarter crowdfunding campaign](#) to help expand sales of this marvelous idea. The clips have already been patented, and have been sold in 32 different states, and 13 countries. Kicker Boot Clips are entirely American made, so supporters of manufacturing in the United States can proudly wear them. Better yet, they are made by the same companies that create items for Harley Davidson, so you know you can count on the clips coming from quality manufacturers. By contributing \$25.00 or more to the crowdfunding campaign, you are eligible to receive your choice of an urban necklace clip, an earring clip or a horseshoe clip. Delivery is estimated to be sometime in January 2015. The clips can be shipped to anywhere in the world.

So here is your chance to fling off the restrictions of established fashion, and dress up your boots any way you want. Dig into that treasure chest of jewelry that you've been dying to wear – but just didn't have the right dress or blouse. Or if you don't happen to have a treasure trove of sparklies, browse the jewelry stores, flea markets or even (shhhh – no one will know) yard sales for unique bits of bling. You'll be amazed at the positive comments you will get the next time you have occasion to dress up in your favorite pair of boots.

About: Ralinda Howard is a dedicated entrepreneur. She is self-employed, and has taken many ideas from inspiration to profitable sales. Kicker Boot Clips ([www.kickerclips.com](http://www.kickerclips.com)) is her newest enterprise. When she is not developing new ideas, she raises horses, gardens, travels cross country on her Harley and enjoys time with family and friends.
