-- HAYPI CO., LTD, the creator of Haypi Monster and many other games is happy to announce a new update about to be released: Haypi Monster Version 1.7!

The Haypi Team has been working hard and making much progress to the never ending progress of its products including Haypi Monster. In the upcoming Version 1.7, there have been things added as well as things improved. Among the things that have been added, there are

- "Dailies Reward Activity" in which you go through and these dailies and be rewards for your efforts with ranking points as well as receiving nice inventory.

- There have been Magic Matrix, Magic Stones and an Embedding system in which to help improve the stats of a monster.

- Giftboxes! These are gained by making in-game purchases, giving a bigger bang for your buck!

- The improvements! There have not only been General Server Optimizations, but there have been a bunch of minor bugs that have been fixed as well.

Now that the Haypi Monster Version 1.7 news is out in the public, let's move onto some other things going on with Haypi Products and the Haypi Community.

To start with, the Haypi Pirates team has now submitted a patch to Apple for review. This patch will fix

some occasional issues and become compatible to the newest iOS 8.1.2.

Next in line is that Haypi Kingdom: The Return of the King's new version has reached the stage of internal testing, and will be submitted for review in the very near future.

Last but not least, the entire Haypi community has been and still is celebrating the Christmas Holiday with a variety of activities and events.

Haypi is very happy to keep a close eye on its products and is always glad to receive feedback on anything and everything to help make all Haypi-tiers enjoy playing. The Haypi Team would like to send out a big thanks to all Haypi-tiers for their support and look forward to keeping up with the tide of improvements and developments!
