Are Store Clerks Cashing or Snatching Your Winning Lottery Tickets?

ORLANDO, FL, USA, January 6, 2015 /EINPresswire.com/
-- Are Store Clerks Cashing or Snatching Your Winning Lottery Tickets?

As ABC News reported, a major investigation is underway of a new lottery scam that appears to have its roots in Southern Florida. Authorities were surprised to learn that 9 out of 10 recent major scratch-off lottery winners were store clerks who sell the tickets! Convenience store clerks and other lottery retailers have been being accused of tricking customers by telling them their lottery ticket is not a winner and pocketing the cash for themselves, or by swindling unsophisticated players into thinking that they have won a much lower amount and keeping the difference. Orlando Florida's Richard Lustig is the world's only seven-time lottery game grand prize winner and the author of Learn How to Increase Your Chances of Winning the

Lottery. Richard says, "It makes me sick to think that these convenience store clerks are ripping off the people who are the easiest to take advantage of...mostly the elderly and those who don't speak or understand English very well." And while he says that "there are tons of both of those groups here in Florida, these kinds of scammers can take advantage of you or your loved ones wherever you live."

Richard Lustig is happy to share helpful tips for lottery players including:

- Keeping all your tickets...even if the store clerk says that you've lost
- Writing your name and personal information on the back of all your cards
- How to increase your chances of winning scratch ticket games
- Why you should play "second chance" games
- How can you avoid "the lottery curse"
- His thoughts on playing the lottery responsibly

Richard Lustig has been asked to share his winning lottery method by thousands of people, and that's why he wrote LEARN HOW TO INCREASE YOUR CHANCES OF WINNING THE LOTTERY, which details exactly how he does it. You can purchase his book thru his website www.winninglotterymethod.com.
