

Romarc Awarded Worldwide License Contract from Infineon for Material Control System and AMHS Emulator

SANDY, UTAH, USA, December 31, 2014 /EINPresswire.com/ -- Romarc announced today that Infineon Technologies AG has purchased a worldwide license of the company's Roma MD™ Material Control System, as well as RES-Q™, the company's emulator for automated material handling and transport systems.

The initial installation is scheduled for completion in Q1 2015 at Infineon's frontend fab in Regensburg, Germany. After substantial completion of this initial project, Infineon has now exercised its contractual option to purchase the worldwide license.

Covered under the worldwide license are all frontend and backend facilities, including existing frontend fabs in Austria, Malaysia, and Germany.

President & CEO, Rory M. Gagon, stated, "Infineon's decision to exercise its option for the Worldwide license is further illustration of Romarc's world-class factory automation software suite. We are very pleased to be part of Infineon's goals to keep its factories at the highest possible productivity levels."

About Romarc

Romarc Corporation provides world-class software products and integration services for factory automation in the semiconductor, solar, medical device and other industries. Romarc specializes in material transport and storage management, as well as integration to a wide variety of manufacturing execution systems.
