

Trianz Announces its Participation IBM InterConnect 2015 from Feb 22nd-26th

Trianz is happy to announce its participation at the IBM InterConnect 2015 - The Premier Cloud & Mobile Conference from February 22-26, 2015.

SANTA CLARA, CALIFORNIA, USA, January 12, 2015 /EINPresswire.com/ -- By incorporating three dynamic IBM conferences — Impact, Innovate and Pulse — into one; InterConnect has become the most comprehensive and collaborative event ever, providing an even richer experience to all the attendees. This gathering will also provide a platform for businesses and IT leaders to network and interact with their peers and other IBM business partners.

There lies no iota of doubt, as to how Cloud, Mobile, DevOps and Security, together promise to continue to change the way we carry our business today. Trianz looks forward in showcasing it's key offerings to its clients, while

participating and garnering more understanding on Cloud as the great equalizer; Mobile as the activation point; DevOps, as the culmination of innovation, and underpinning all by Security. Looking forward to this experience we have Ira Horowitz, VP - Global Alliances, share his view on the participation, "Over the past few years, Trianz has succeeded in strengthening its relationship with IBM. We are immensely happy to participate in this conference. This will provide us with an excellent forum where we would get to upgrade our knowledge through interactions with the IBM experts and partners, and gain an understanding of the latest developments in the domain of Cloud and Mobile. Being a strategic partner of IBM, this event gives us a big opportunity to expand our reach and build new relations."

Trianz experts from the Consulting and Technology teams will be present at the event to provide insights and discuss Analytics, Mobility, Asset Management, Cloud, and DevOps initiatives and more with their clients and prospects. Interested attendees can schedule a meeting with us here - <http://www.trianz.com/events/2015-ibm-interconnect.php>.
