

Tinian Communications' Managed Wi-Fi Internet Now at Park Place Landing Apartment Homes, Kenedy, TX

Tinian Communications Internet services in Kenedy, TX- New Park Place Landing apartment homes provide luxurious living and high-end wireless Internet services.

AVENTURA, FL, USA, January 13, 2015 /EINPresswire.com/ -- [Tinian Communications](#) (Tinian) is a provider of low voltage services to [Park Place Landing](#), a newly completed 80 unit luxury apartment home community located in Kenedy, Texas. Park Place Landing supports the Eagle Ford Shale oil and gas industry workforce and surrounding communities. Services currently provided by Tinian Communications include managed, state of the art wireless Internet service.

Tinian Communications specializes in providing commercial grade Internet, Wi-Fi, TV, phone, data hosting and network management services to the multifamily, student housing, military housing and hospitality industries.

"In today's apartment communities exceptional connectivity services are an expected amenity, thus the installation of wireless Internet services was imperative." said Scott Lee, Managing Member of LLHR Investments, LLC and owner-operator of Park Place Landing. "The selection of Tinian Communications to custom design and install the Park Place Landing wireless network has enabled Park Place Landing to provide the best in Internet connectivity for our customers."

Tinian's network engineers designed a full coverage wireless network for Park Place Landing addressing the specialized wireless requirements required by that site. Due to the 24/7 work schedule that the oil and gas industry generates, with multiple guests in each apartment home, each guest needed their own Internet account independent of the other guests in the same apartment. Scott Lee said, "Guests may share a residence, but they don't want to share Internet. Through the expertise of Tinian Communications, we have secure Internet accounts for every resident. Tinian technology is such that no one guest can interfere with another resident's Internet service and our residents and their guests can use the Internet whenever they need and when it's convenient for them."

Jonathan Greenwald, Tinian President and CEO said, "We are pleased that Tinian Communications was selected to provide our "best in breed" low voltage services to this apartment community. Tinian's wireless turn-key solutions make it possible to provide

outstanding wireless Internet to both property management and residents." Mr. Greenwald concluding said, "Tinian Communications endeavors to exceed performance expectation for both residents and management. Tinian is committed to being the industry's best and most responsive [wireless Internet solutions](#) provider for this Kenedy, Texas community."

Tinian has a continuing strategic partnership agreement with Mesh Networks (Mesh) which allows Tinian to integrate Mesh's complete line of patent pending bandwidth management solutions into Tinian's "full service offerings". Tinian delivers cost effective, state-of-the-art bandwidth management technologies, network design, and installation for new builds or retro-fit projects in the apartment, student housing, MDU, and hospitality industries.

About Tinian Communications:

Tinian Communications is an IT solutions company providing commercial grade TV, Internet, Wi-Fi, phone, CCTV, access controls, network management and consulting services to developers, owners and operators of student housing, multifamily, military housing and hospitality assets. www.tiniancommunications.com
