(mostly) TRUE THINGS features Moth-style stories developed and performed by people from all walks of life. One of the 4 stories told in a show is the whole truth, the other three contain little white lies or carefully crafted fabrications. The audience has an opportunity to question the storytellers about the details in the stories, then votes. Audience members who correctly choose the whole-truth teller get a prize, then the whole truth about each story is revealed. New York Newsday featured this monthly show in a 2-page article on November 20, 2014. Host and creator Jude Treder-Wolff is a writer/performer and President of Lifestage which produces the event.
