

Le Jardin Villas, the 1st Rain Forest Garden Villa in Bali

Encompassed by Nature for an Enriching Balinese Experience

SEMINYAK, BALI, INDONESIA, January 22, 2015 /EINPresswire.com/ -- Le Jardin Villas was once a deep jungle immersed in the midst of the lively Seminyak district. Giant rainforest trees were everywhere, with smaller trees, distinct plants, and thousands of undiscovered species living underneath, giving a vivid idea, how wonderfully exotic this 4.000 m2 land is. "As the 1st Rain Forest Garden Villa in Bali, the beauty of Le Jardin was truly unparalleled and breathtaking, therefore Le Jardin doesn't want to let it be washed away by modernization," explained Sunarga Sonny, Operational Manager of Le Jardin Villas.

With the wisdom of preserving the nature, Le Jardin split the development into several phases, so that they were able to save some of the gigantic trees, which obviously hold an important role in protecting its environment. Le Jardin also managed to involve the trees as part of the architectural design, and build around it, thus Le Jardin have a few villas with a giant tree pierced through its living room or bedroom, something that even strengthened the 'in unity with nature'

concept.

Le Jardin Villas present the new redress up spa room along with its five stars facilities, such as the private pool and garden, spacious bedrooms with semi-open air bathroom, and relaxing spa treatments with Herbal Treatment as the signature treatment. To enrich a Balinese experience in villa, choices of Balinese cakes or well known as Jajan Bali served on daily afternoon tea by friendly staffs throughout the stay, are what define Le Jardin as a whole, a peaceful and secluded haven!

Le Jardin also honored to get recognition from TripAdvisor three years in a row to get Certificate of
