“

Conservative policies can and will cure the issues plaguing our state. We only need the courage to stand for our beliefs. In short, liberalism is the cancer, and conservatism is the cure.

Phil Prucey

“My belief is that conservative policies can and will cure many of the issues plaguing our state and country, including but not limited to: entitlements, taxes, deficit spending, over-reaching regulations, energy, labor unions, and health care. In fact, most of our major problems are rooted in liberal policy. Our country is in crisis, however we have the ideas, knowledge, and motivation to take corrective action. In short, liberalism is the cancer, and conservatism is the cure”.

The Conservative Party (www.conservativepartyusa.org) will rectify the consistent failures of the two major parties. CP-USA is America’s true “Second Party” and represents the next step in the evolution of the Tea Party.
