

New Clinical Data Release for Lumbar and Cervical Non-Surgical Spinal Decompression

TAMPA, FL, USA, January 27, 2015 /EINPresswire.com/ -- Integrity Life Sciences announced today that it will be releasing new clinical data from retrospective clinical trials conducted at an integrative orthopedic care facility. The compiled data collection efforts are the first with a combined data profile of patients having successfully completing either lumbar or cervical treatments for non-surgical spinal decompression.

Select patient outcomes are highlighted with pre and post MRI data, recurrence rate, and adherence to multi stage post protocol follow-up guidelines.

Integrity Life Sciences will be releasing the data this week at Arab Health in Dubai, United Arab Emirates and at Parker Educational Seminars in Las Vegas, Nevada. Arab Health is the premier showcase for the Middle East region with anticipated attendance figures in excess of 120,000 participants and more than 4,000 international exhibitors. Dallas, Texas based Parker University is one of the world's leading educators of health care professionals and includes Parker Research Institute, which provides sound, scientific evidence supporting health and wellness.

Complimentary copies of the clinical data can be obtained by contacting the company directly. Reproduction of the data is subject to written approval by the President of Integrity Life Sciences, James Gibson.

Integrity Life Sciences delivers a multitude of orthotic treatment options to address one of the most costly systemic ailments in the world, chronic low back and neck pain. The advanced solution begins with the Integrity Spinal Care System. Integrity's medical devices are non-surgical spinal decompression therapy systems engineered to provide pain relief for compressive and degenerative conditions of the spine. Specifically, conditions that may be treated include: neck pain and back pain associated with herniated discs, protruding discs, degenerative disc disease, posterior facet syndrome, and sciatica. It achieves these effects through decompression of intervertebral discs, that is, unloading due to distraction and positioning.

Additionally, Integrity offers the very effective Integrity Gel Support Brace. The Integrity Gel Support Brace is a lumbar support brace that is a fitting compliment to non-surgical spinal decompression. The Integrity Gel Support Brace was designed as an adjunct therapy for those suffering from back pain and with the back pain sufferer's needs in mind. The Integrity Gel Support Brace can be used with or without Integrity's non-surgical spinal decompression medical devices, and is an excellent treatment option for personal home use.

Team Integrity is guided by the leadership of Mr. James Gibson and a staff of managers, engineers,

technicians, quality and regulatory approval professionals with a cumulative 50 plus year track record in the health care industry, with specific demonstrated success in the global Non Surgical Spinal Decompression Industry. Integrity Life Sciences manufactures its products with quality and safety standards as demonstrated by its ISO 13485 registered quality system with TUV, SUD and the CE mark affixed to its product. Our FDA clearance together with compliance to global harmonized standards of both Mark CE and ISO 13485 allows Integrity Life Sciences to distribute to countries all over the world. As the owner of multiple US Patents, Integrity Life Sciences is committed to ongoing research and development in support of the worldwide healthcare community.

Prior to Integrity Life Sciences, Mr. Gibson founded Axiom Worldwide, Inc in 2001 and obtained multiple US FDA 510(k) clearances over the years. Axiom invented its flagship products, the DRX9000 True Non-surgical Spinal Decompression System and the DRX9000C, for use in medical markets around the globe. The DRX 9000 and the DRX9000 C were created to provide relief of back and neck pain and symptoms associated with herniated discs, bulging or protruding intervertebral discs, degenerative disc disease, posterior facet syndrome, and sciatica. The dedicated team at Integrity Life Sciences will continue to support legacy devices while pursuing continued medical innovations throughout the world.

Integrity Life Sciences is a privately held USA based company with international partners located across the globe with a mission of "Restoring Integrity to the Spine".
