

Experienced Executive Joins Omada's Senior Management Team

COPENHAGEN, DENMARK, February 2, 2015 /EINPresswire.com/ -- Software provider Omada is experiencing significant growth across Europe and North America. The company's rapidly increasing community of customers and partners reflects demand for Omada methodologies and technologies. Omada's solutions provide enhanced security, compliance, and automation for managing access rights across hybrid environments.

To support growth that sustains excellence, Omada is pleased to announce that Mr. Brian Hansen is joining our senior management team as Executive Vice President, responsible for international Identity Governance and Administration (IGA) Consulting and Delivery.

Brian Hansen will offer our team more than 25 years of experience in the IT industry, including an expert track record for working with enterprise customers, delivering IT projects, and growing Professional Services business units. He comes to us from a position as Director of Netcompany. Brian also worked 12 years as managing director in the business intelligence company Platon.

Brian's broad, deep expertise will help ensure successful international growth for Omada. As Executive Vice President for Omada's IGA Consulting and Delivery organization, he will be well-equipped to support Omada's clients and partners, as well as develop the rapidly growing IGA business unit.

Omada's CEO Morten Boel Sigurdsson says, "I'm confident that Brian's experience and energy will be key to supporting Omada's business growth and success. He's also bringing us a great advantage with his knowledge of Business Intelligence technology—the foundation for Omada's identity governance solutions. We're delighted he's bringing so much to our team." Brian Hansen is ready to take off in his new role. "I was truly impressed by Omada's methodologies, superior technologies and successful track record for delivering great business value to customers. I'm joining a team of talented people. And I'm ready for an exciting task—developing and further expanding Omada's customer base, as well as its consulting and delivery organization internationally."

About Omada

Omada is a market-leading provider of IT solutions and services. Omada helps organizations protect sensitive business information, achieve compliance, and minimize risk exposure while reducing administrative costs. Technologies include adaptable [identity management](#) solutions. Omada's solutions efficiently manage and control users' access rights to applications and data - reducing IT costs and resource intensive administration processes.

Established in 2000, Omada has operations in North America and Europe, delivering solutions directly and via a network of skilled partners and system integrators. Omada is recognized as a trusted advisor and has provided advanced identity management and governance solutions for organizations with some of the largest and most complex IT infrastructures in the world.
