

RFSS Receives Over \$4 Million in Contract Awards in 4th Quarter of 2014

Radio Frequency Simulation Systems, Inc., receives multiple awards for Radar Test Simulators in 4th quarter 2014

ORANGE, CALIFORNIA, USA, February 12, 2015 /EINPresswire.com/ -- Radio Frequency Simulation Systems, Inc. (RFSS), a leading developer and supplier of [Radar Environment Simulators](#) (RES), [Radar Target Generators](#) (RTG), ECM/Target Generators (ECM/TG), and Digital RF Memory ([DRFM](#)) systems has announced that it has received multiple contract awards worth over \$4 Million dollars in the 4th quarter of 2014 from U.S. and International defense industry customers for its RES, RTG, and ECM/TG products. Due to customer and other sensitivities no additional details are being provided.

Richard Damon, President and CEO at RFSS said, “Our leadership in the radar test and simulation area is being recognized as demonstrated by these awards and ends finishes our calendar year with a very substantial backlog. Our high performance DRFM technology coupled with our advanced simulation architecture, full use of Commercial off the Shelf (COTS) hardware and open standards has been well received by our customers. More importantly we are supplying the most advanced technology at the industry’s most competitive pricing.”
