

MHRA provide regulatory guidance at Paediatric Clinical Trials 2015

Paediatric Clinical Trials, 25 - 26 March 2015, London UK

LONDON, LONDON, UNITED KINGDOM, February 12, 2015 /EINPresswire.com/ -- Discover how to use EU Paediatric regulation to develop better medicines for children and receive submission regulatory guidance from the MHRA when [Paediatric Clinical Trials 2015](#) returns to London this spring.

SMI's 9th annual show provides a unique platform to share ideas with scientific leaders and identify cutting-edge developments such as innovative ideas for infectious diseases, the latest procedures to determine dosage in children and new methods for the practical application of physiologically based pharmacokinetic modelling.

Paediatric Clinical Trials 2015 will aim to:

Provide regulatory updates - The agenda discusses global paediatric legislations and will review how an addendum to the current E11 guideline could address new scientific and technical knowledge advances in paediatric drug development. Attendees will discover how to use EU Paediatric regulation to develop better medicines for children and receive submission regulatory guidance from the MHRA.

Give strategic guidance - Paediatric Clinical Trials 2015 will feature an array of case studies from major pharmaceutical companies, providing unique insights into the administration of medicine through food, strategies for applying PBPK in drug development projects, patient retention and paediatric clinical trial strategies used by GSK, Roche and Lundbeck

Minimise costs - Presentations this year will identify issues to help prevent approval delay and key factors that influence study design to optimise operational execution of paediatric clinical trials.

Debate on Patient Recruitment – A panel debate lead by the Paediatric Committee (PDCO), will discuss how to optimise patient preservation schemes and discuss strategies in maximising retention and establish the most effective patient recruitment methods.

Key speakers include klausrose Consulting, MHRA, Paediatric Committee (PDCO), Novo Nordisk A/S, Novimmune, GlaxoSmithKline R&D, Lundbeck. [Click here](#) to see the full speaker line-up
