

WInnForum Announces Technical Program for Annual Technical Conference WInnComm 2015

Event features three days of keynotes, technical papers, workshops, and product exposition at the Qualcomm Institute at UC San Diego in Atkinson Hall

WASHINGTON, DC, USA, February 17, 2015 /EINPresswire.com/ -- The <u>Wireless Innovation Forum</u> (www.WirelessInnovation.org), a non-profit international industry association dedicated to driving the future of radio communications and systems worldwide, announced today the technical program for its upcoming

Conference on Communications Technologies and Software Defined Radio (WInnComm 2015).

As the only event devoted to advancing innovation in spectrum access and radio technologies from research through deployment, this is the premier venue to network with and learn from the leading innovators in the advanced wireless market to gain a functional knowledge of relevant emerging opportunities and technologies. The event features three days of keynotes, technical papers, workshops, a product exposition and more at the Qualcomm Institute at UC San Diego in Atkinson Hall, 24-26 March 2015.

This year's keynotes include:

- Paul Garnett, Microsoft
- Julius Knapp, FCC's Office of Engineering and Technology
- H Sama Nwana, Dynamic Spectrum Alliance
- Ed Tiedmann, Qualcomm
- Klaus Doppler, Nokia Research

Featured workshops include:

- 5G: What's the Big Deal?
- Dynamic Spectrum Sharing
- Big RF and Context Aware Cognitive Radio
- Evaluation, Analysis and Prototype of SCA 4.1 Results

The conference will also feature eight technical sessions with papers on: CR and DSA

Architectures; SDR, CR and DSA Signal Processing; Interference Mitigation; Receiver Architecture and Performance; Software Communications Architecture; Platforms, Test Beds and Demonstrators; and Vehicle Communications.

The event will hold poster sessions along with a product exhibition featuring BEEcube, DRS Technologies, NordiaSoft, Pentek, PrismTech, Reservoir Labs and Siru Innovations Oy.

View the complete agenda here: <u>http://www.conference.wirelessinnovation.org/conference-at-a-glance</u>. To apply to exhibit at the event, click here: <u>http://www.conference.wirelessinnovation.org/sponsorship-and-exhibiting</u>.

In its 13th year, WInnComm attracts attendees that include investors, commercial network operators, radio manufacturers, system integrators, government procurement officials, regulators, engineering service providers and consultants from around the world. For more information on the Conference, visit <u>http://Conference.WirelessInnovation.org</u>.

Supported by sponsors Selex ES, Motorola Solutions, Pentek and Thales, the Wireless Innovation Forum provides a singular venue to advance software defined radio, cognitive radio and dynamic spectrum access technologies, to educate and influence decision makers at all levels of the wireless value chain, and to drive changes that will address emerging wireless communications. The Forum enables professionals to network with the leaders in the advanced wireless community, including potential customers to explore new business opportunities, potential competitors to gain insight into product and service differentiation, and potential suppliers to influence their requirements and thus reduce overall R&D costs. Additional information can be found at <u>http://www.WirelessInnovation.org</u>.
