

# Last Minute Games announces their new game Arco

*Last Minute Games have announced their next game, "Arco" for distribution via Steam to Windows, Mac and Linux*

AALBORG, DENMARK, February 18, 2015 /EINPresswire.com/ -- The game takes place in a fantasy world, a mystical land cracked in two. Arco is a hunter, an archer living in the woods at the bottom of a huge chasm stretching hundreds of miles. One day a huge tremor shakes the entire world. Everything is shaking apart and even the earth below opens up into what seems like bottomless cracks, swallowing entire species into the dark abyss beneath. This is when Arco's journey begins.

Arco is a fast-paced puzzle RPG game filled with quirky characters and wonderful adventures. Players will go through waves of enemy hordes using not only all the skills available, but also combining these skills into awesome combos to maximize their effectiveness.

Enemies will keep moving forward and all you have at your disposal is a bow and arrow to stop them. However as you progress you'll learn to use some pretty epic arrowheads and who knows, you might even be able to unlock powers from within.

In order to gain funding for completing Arco, Last Minute Games have started a Kickstarter campaign and are currently working on getting Greenlit on Steam. If funding is secured, Arco's release date is set for a Q4 release in 2015 and will firstly be distributed on Steam and later on gaming consoles and mobile platforms.

Last Minute Games is a small indie game studio established in October 2014 in Aalborg, Denmark.

The founders are Dennis Risborg, Juan Garcia and Jonas Christensen. The team has a combined experience of over a decade in the game industry. Visit us online at [www.lastminutegames.dk](http://www.lastminutegames.dk).
