

Sycor at Microsoft Convergence 2015

Sycor will exhibit at the Microsoft Convergence 2015 in Atlanta from March 16-19, presenting its global solutions and services for Microsoft Dynamics AX.

GOETTINGEN, GERMANY, February 23, 2015 /EINPresswire.com/ -- "The Microsoft Convergence is the most important event for us to learn about trends and recent developments concerning Microsoft Dynamics AX, to market our solutions, and to connect with other Microsoft partners," is Frank Jakobi, SYCOR GmbH Vice President, excited about the upcoming main event for the Microsoft Dynamics AX community. The Microsoft Convergence 2015 will be held in Atlanta, Georgia, March 16-19, at the Georgia World Congress Center.

Jakobi, who is in charge of the global Microsoft Dynamics AX activities of the whole Sycor Group, adds: "We will be marketing our own solutions [Sycor.Rental](#) and [Sycor.Fleet](#) as well as our comprehensive services for [large-scale](#), global Microsoft Dynamics AX 2012 implementation and rollout projects."

At booth No. 1439 Sycor is aiming to win new customers over. Marco Arndt, CEO Sycor Asia who has global responsibility for Partner Management with regards to Microsoft Dynamics AX activities, underlines: "We also want to further expand our already existing partner network for global implementations of our industry solutions Sycor.Rental and Sycor.Fleet at the Convergence."

As a Global Independent Software Vendor (GISV) and with its solutions Sycor.Rental (CfMD) and Sycor.Fleet based on Microsoft Dynamics AX 2012, Sycor is Microsoft's strategic partner for the rental, trade, service and maintenance of mobile goods as well as fleet management industries. The company has been contributing substantially to the success of its customers for years. "We established ourselves as a reliable, global partner for the implementation and rollouts of major international ERP projects with Microsoft Dynamics AX and the associated development of global templates," says Frank Jakobi. The company's global expertise stems from projects in over 80 countries and systems with up to 5,000 users.
