

Leading experts in the field of space technology gather in London in one weeks' time

SMi's 10th Military Space conference takes place on the 4th - 5th March 2015 at the Holiday Inn Regents Park hotel at London, UK

LONDON, ENGLAND, UNITED KINGDOM, February 24, 2015 /EINPresswire.com/ -- Join SMi in London on the 4th and 5th March 2015 to hear from a line-up of high level military and industry speakers delivering unique insight into the role of space as a key component in future military communications. The [conference](#) programme will feature 4 keynote addresses, 15 thought provoking presentations, case studies and unrivalled networking opportunities throughout the two day event.

Attendees will have the chance to explore the latest advances in ballistic [missile defence](#), space operations, high frequency communication, space situational awareness, earth imaging, space debris, risks for future space missions and satellite communication for internal security.

Confirmed organisations to attend Military Space 2015 include leading experts from:

UK Space Agency, US Department of State, France MoD, FMV (Swedish Defence Material Administration), Airbus Defence and space, German Air Force, NATO, Spanish Armed Forces, US Embassy, US European Command (EUCOM), Swedish Defence Research Agency, UK MoD, Egyptian Defence Office, European Defence Agency, MoD Spain, National Academy of Sciences, Nigerian Navy Headquarters, Republic of Singapore Air Force, European Global Navigation Satellite Systems Agency, European Union Satellite Centre, Ability Sat, Beijing Siongyu Space Technology Corporation, Cranfield University, Institute for strategic research of "École Militaire" (IRSEM), UK Foreign and Commonwealth Office plus many more.

The [conference programme](#) will feature 4 keynote addresses including an opening address from

the host nation:

- Group Captain Martin Johnson, Space Security Policy, UK MoD

Presenting on: Space Security and Operations – a UK MOD perspective

- Peter Woodmansee, HQ U.S European Command Missile Defense Program Manager, EUCOM

Presenting on: Space and Missile Defense Operations

- Professor Richard Crowther, Chief Engineer, UK Space Agency

Presenting on: Blurring the boundaries: Dealing with Dual Use Space Systems within Governance/Security Frameworks

- Kenneth Hodgkins, Director of Space and Advanced Technology, US Department Of State

Presenting on: International cooperation in Promoting a Global Navigation Satellite System (GNSS) of Systems
