

NordiaSoft Expands Its Engineering Service Team

NordiaSoft announced today it has hired Mr. Dmitry Zvernik to complement its expanding SCA Engineering Service team.

GATINEAU, QC, CANADA, March 9, 2015

/EINPresswire.com/ -- [NordiaSoft](#), provider of the world most popular Integrated Development Environment (IDE) for Software Defined Radios (SDR) based on the Software Communications Architecture (SCA), announced today it has hired Mr. Dmitry Zvernik to complement its expanding SCA Engineering Service team. Mr. Zvernik joins NordiaSoft as a SDR/SCA Systems Architect and adds over a decade of experience that will help NordiaSoft keep up with the increasing demand for engineering services.

Mr. Zvernik has occupied key engineering roles in a wide range of embedded development projects ranging from the creation of Board Support Packages (BSP) to building military [SCA radios](#) using different backplanes, real time operating systems, and generations of embedded GPPs, DSPs, FPGAs from the leading vendors in the market. He also has experience in implementing and porting SCA waveforms for a number of different radio platforms.

“

With this latest addition, NordiaSoft is showing once again its commitment to provide the highest quality of engineering services to help customers accelerate the development of their products.”

*Claude Belisle, CEO of
NordiaSoft*

NordiaSoft has a track record of working very closely with the industry to support customers in the development of SCA-based embedded systems. “With this latest addition, NordiaSoft is showing once again its commitment to provide the highest quality of engineering services to help customers accelerate the development of their products” said Claude Belisle, CEO of NordiaSoft.

About NordiaSoft

NordiaSoft offers products and services for customers that

need to create state of the art software defined platforms for use in the military/aerospace, telecommunications, robotics, instrumentation, transportation, and consumer electronics

industries. NordiaSoft's core team has led a decade-long list of industry firsts in SCA technologies now embedded in thousands of hardware products. As experts in software components for embedded systems, NordiaSoft's products and services offer proven solutions to developers creating next generation platforms. NordiaSoft's team is recognized for its client-focused philosophy and offers exceptional technical support, mentoring, and consulting. More info at www.nordiasoft.com
