Centerity Offers IT Monitoring Through CenturyLink's Cloud Marketplace

Special offer for Microsoft & Linux users to try Centerity's top of the line IT monitoring and cloud monitoring software free of charge via CenturyLink's cloud.

"Your Link to What's Next"

NEWTON, MASSACHUSETTS, USA, March 17, 2015 /EINPresswire.com/ -- Centerity Systems, Inc., a developer of enterprise-class and carrier-class IT monitoring solutions for complex hybrid IT environments, has announced its certification under the CenturyLink Cloud Marketplace Provider Program. Inclusion in the program allows Centerity to offer a trial of select IT monitoring services for CenturyLink Cloud platform customers at no additional charge for a period of 30 days.

Customers are now able to deploy the unified IT monitoring platform known as Centerity Monitor, which is featured in the Blueprint Library of CenturyLink Cloud. Once deployed, CenturyLink Cloud users will have access to an enhanced set of up to 10 performance and availability metrics for cloud-based Linux and Windows hosts. During the trial, CenturyLink Cloud customers will have access to the Centerity Monitor Dashboard, which provides key metrics, summary views of real-time system health, and enhanced reports about system utilization, usage, uptime, trends, and history.

The CenturyLink Cloud Marketplace Provider Program allows participating technology companies, like Centerity, to integrate their solutions with the CenturyLink Cloud platform. These additional business-ready solutions are available to CenturyLink’s cloud, hosting, and network customers.

"This trial offer is a great first step to demonstrate the value Centerity’s services can deliver for customers of the CenturyLink Cloud platform," said Marty Pejko, COO of Centerity Systems. "Our future plans call for enabling the complete, end-to-end Centerity IT monitoring platform within the CenturyLink Cloud platform. Our entire offering provides business intelligence, value and cross-domain analytics to decision-makers at all levels of an organization, including executives, managers, and administrators."

"Application monitoring is an important element of any cloud deployment. Centerity’s

technology suits many cloud deployment use cases and provides fast access to performance data and application insight. We're excited about the value Centerity can bring to the CenturyLink Cloud Marketplace Provider Program, which makes it easy for our customers to try new technologies in the performance management space," said David Shacochis, vice president of cloud platform at CenturyLink. "We've simplified and streamlined the path for businesses to monitor and improve their cloud-based applications using the robust and developer-friendly CenturyLink Cloud platform."

To start using Centerity on CenturyLink Cloud today, log into the CenturyLink Cloud Panel, locate the Centerity Blueprint, and click "deploy." To learn more about the trial offer and technical details, review the Centerity Monitor Technical Guide in the CenturyLink Cloud Knowledge Base.

About Centerity

Centerity Monitor (http://www.centerity.com/) is a next-gen, end-to-end IT monitoring platform for an organization's entire IT monitoring needs. Centerity Monitor provides business value and real-time analytics regarding the status, performance and availability of all IT assets whether in the cloud or on prem in complex, hybrid environments. Centerity's unique, unified platform, named a Gartner Cool Vendor in 2014, can serve the needs of both IT executives and administrators while providing a complete business intelligence layer across all IT assets via cross technical and functional domain impact and trend analysis.

Centerity's unified IT monitoring platform includes coverage for all physical, virtual, application and cloud assets from the physical (switches, servers), network (WAN, LAN, VOIP), application (OS, Standard & non-Standard), virtual (VMware, Hyper-V, Xen), end-user experience (EUX/optional), Big Data (Hadoop, SAP HANA, NoSQL), cloud and Business Service Management (BSM) layers with multi-tenancy and federated scalability.

Centerity Monitor provides accurate real-time measurements of performance and availability against SLAs with drill-down root cause analysis, intelligent alerting, predictive and trend analysis, inventory and asset discovery, CMDB, ticketing, automation, live maps and visual, interactive graphs, in addition to other advanced features. Centerity Monitor's business value is to provide business analytics and business intelligence via a unified software platform with superior Time-to-Value (TTV), Total Cost of Ownership (TCO) and Return on Investment (ROI) characteristics.
