

# IT Governance congratulates client Coeo on achieving ISO 27001 certification

---

ELY, UK, March 19, 2015 /EINPresswire.com/ -- [IT Governance](#), the global leader in [ISO 27001](#) expertise, is proud to congratulate Coeo on achieving ISO 27001:2013 certification. The company, which provides solutions that deliver business value using Microsoft's SQL Server and Cloud technologies, used the IT Governance ISO 27001 consultancy and training services to prepare for certification.

Alan Calder, founder and executive chairman of IT Governance, says, "I am delighted that Coeo have been awarded ISO 27001 certification, which is proof that their information security management system (ISMS) meets the requirements of this demanding international standard. It's also an acknowledgement that they take information security seriously and have implemented measures to protect their sensitive information."

ISO 27001 is the international best-practice framework that enables organisations to systematically and consistently protect their information assets and customers' data, while providing a competitive edge and the opportunity to tender for projects for which ISO 27001 is a prerequisite.

ISO 27001 certification is often a supply-chain requirement and, as such, can help organisations broaden their client base and supply-chain network, and support business opportunities in international markets where the standard is recognised.

Good security practice has increasingly become a client requirement and it can prove a decisive criterion for clients to stay with a particular vendor, especially when the current economic climate forces once loyal clients to consider alternatives.

IT Governance is the only company offering global online access to training and consultancy services for ISO 27001. Its [ISO 27001 Packaged Solutions](#) can be deployed by any company, anywhere in the world, that wishes to implement the ISO 27001 standard and prepare for certification.

Each solution is a combination of products and services in a fixed-price, fit-for-use package sure to meet any organisation's preferences for tackling ISO 27001 compliance projects without the associated complexities and costs.

ISO 27001 'The Basics', 'Do-It-Yourself', 'Get A Little Help', 'Get A Lot Of Help' and 'We Do It For You' packages can be booked online at [www.itgovernance.co.uk/iso27001-solutions.aspx](http://www.itgovernance.co.uk/iso27001-solutions.aspx).

Alternatively, organisations can call +44 (0)845 070 1750 or send an email to request a custom quote.
