

RossBackup Gives Away Brooklyn Nets Tickets for World Backup Day

RossBackup is offering the ultimate fan experience to all those who purchase a cloud backup plan. The promotion continues only while ticket supplies last.

SADDLE BROOK, NJ, USA, March 26, 2015

/EINPresswire.com/ -- In celebration of World Backup Day (3/31), RossBackup is offering the [ultimate fan experience](#) to all those who purchase a [cloud backup plan](#). Anyone who signs up for a Personal, Family, or VIP backup plan will receive two free tickets – one adult and one child – to the Brooklyn Nets vs. Orlando Magic Basketball game on April 15 at the Barclays Center. All children will have court time to play before the game begins. In addition, as a special promotion, those who purchase a [family or VIP backup plan](#) will automatically be entered in a raffle for their child to greet the Brooklyn Nets players as they enter the court.

What does World Backup Day have to do with a Brooklyn Nets game? Everything! Important data, like one-of-a-kind family memories, deserve to be saved instead of getting lost from hard drive crashes, computer viruses, or stolen phones. For RossBackup founder and CEO Aaron Ross, it's all about making (and keeping!) memories:

"I want to encourage customers to back up their files by giving them a special experience with their child that they can revisit time after time. From the car ride to the game itself, my hope is that all the winners take photos and videos throughout the day and use their new backup plan to save their memories!"

The promotion is currently running and continues only while ticket supplies last. Winners will be notified via email immediately after purchasing their backup plans. The raffle winners will be notified at the game.

About Ross Backup:

RossBackup is a cloud backup provider founded by IT Security Expert and family man, Aaron Ross. The company's goal is to provide individuals, families, and businesses the ability to live life

Important data, like one-of-a-kind family memories, deserve to be saved instead of getting lost from hard drive crashes, computer viruses, or stolen phones.

without worrying losing their important data. With 24/7 customer service, unlimited data backup, real-time and automatic backup updates, ability to backup multiple computers and a virtual hard drive option, RossBackup has you covered. Learn more at www.RossBackup.com.
