

Haypi Kingdom: The Return of the King Update Will Be Out Soon!

Haypi Kingdom: Return of the King will run better and smoother for the enjoyment of all players.

SHANGHAI, SHANGHAI, CHINA, March 27, 2015 /EINPresswire.com/ -- HAYPI CO., LTD, the creator of Haypi Kingdom: The Return of the King and many other games is happy to announce a new update about to be released: Haypi Kingdom: The Return of the King Version 1.0.8! The Haypi Team has been working hard and making much progress to the never ending progress of its products.

Want to know more about the new patch? The following improvement and news can help.

Trying to use multiple items at one time was quite a tedious task, the programmers at Haypi have simplified it a bit as to make it more convenient to use certain items. There had also been a NPC hero's level bug which has been remedied and they've also significantly optimized the combatant waiting mechanism to make the game run much smoother. Have you been worried about not collecting resources before your storages are too full to carry more? Now Haypi has implemented

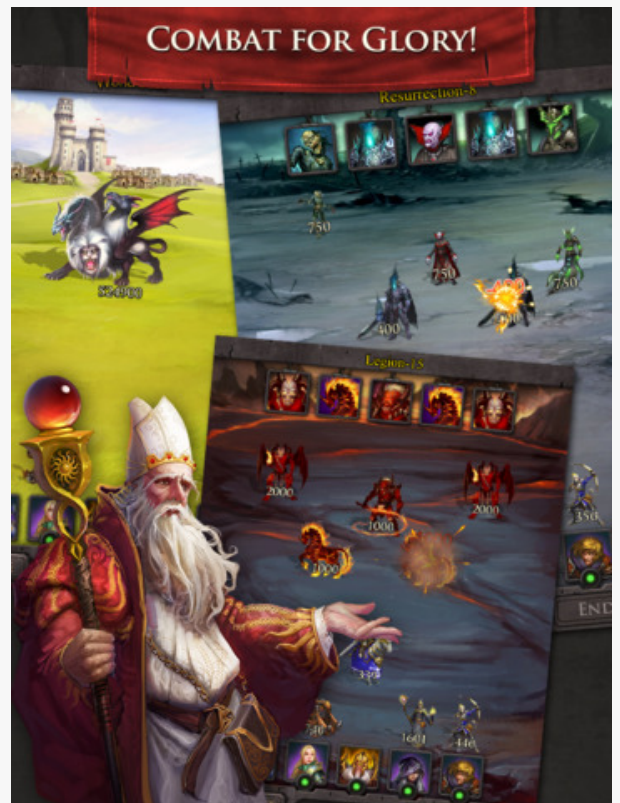

some new push notifications to let you know when your resources buildings have reached their maximum capacity and need to be collected. Concerning the overload display error that occurred when initiating a plunder/attack against another player, this problem has been rectified. Last but not least, there was an error occurring when players ranking 9th and 10th place within "On Guard" were trying to claim rewards, this is now fixed.

The Haypi team has submitted the patch to Apple for review and players shall enjoy the improvement in the near future. Also, the Haypi Monster: The Lost Tower team as well as the Haypi Adventure team is currently working on their next update. Haypi Co., Ltd. is picking up its game and the developers are working hard to keep all its games up-to-date.
