

Male Sexual Health Portal Secures Distribution Agreement

A popular men's health site (PrematureEjaculationPills.com), has entered a distribution agreement with the makers of 5 leading premature ejaculation pills.

LOS ANGELES, CALIFORNIA, UNITED STATES, April 2, 2015 /EINPresswire.com/ -- One of the web's most popular male sexual health websites has officially entered an agreement with 5 of the leading manufacturers of sexual health supplements for premature ejaculation. PrematureEjaculationPills.com is a leading resource site with information and resources dedicated to premature ejaculation(PE) - a common sexual dysfunction experienced by over 30% of men worldwide.

Until recently, the website served primarily as an information site with independent reviews on [premature ejaculation pills](#) and other premature ejaculation treatments, however the website has now entered a distribution agreement with all of the leading manufacturers of premature ejaculation supplements, and they are now available to purchase through the actual website at www.prematureejaculationpills.com.

According to marketing director Dean Andrews, the change occurred due to overwhelming demand from users of the website. "Men have been using our website as an important resource against sexual dysfunction issues for years - and many have contacted us saying it would be much easier and more convenient for them if they could actually buy the products from our websites. We felt that it just made sense, however the tricky part was getting the OK from all of the leading manufacturers to sell their products. They don't want just anyone selling and marketing their products, so they really checked us out thoroughly before giving us the rights to distribute their brands."

"The key for us is that we really had an 'all or nothing' approach," said Andrews. "We wanted to be able to carry all of the best-selling brands, and not just one or two of them." It was really about giving the consumer the ability to review and read about all the top treatments for premature ejaculation - and then decide for themselves which would be the best fit. Fortunately, we were able to do just that."

That means that for the first time ever, men suffering from premature ejaculation can find all the leading PE treatments on one website. As of April 2, 2015 - you can purchase these proven premature ejaculation treatments safely and securely online with your credit card or using your PayPal account. "All payment processing is handled through PayPal payment processors, so you can be sure that industry-leading security protocols are used for all payments," says Andrews. "We know that some people have concerns about buying online, so we wanted people to feel absolutely secure and confident with their purchases."

As a bonus, the company has launched an almost unheard of 60-day money-back guarantee on every single product available on the website. This list of top selling products includes industry leaders [Prexil](#), VigRX Plus, PrematureX, Prosolution Pills, and RizerXL. According to Andrews, the website is proud to offer "1-stop shopping" for men looking for effective and proven male enhancement supplements.

"Until now, men had to spend hours scouring the internet checking out different websites - some of which didn't offer much in terms of reliability or trustworthiness. Now you can visit one site and have everything at your fingertips," says Andrews. "We've given men exactly what they've asked for - and we couldn't be more pleased with how it's worked out."

"Millions of men worldwide suffer from premature ejaculation, and we're pleased that our website has made it easier than ever for men to have access to proven premature ejaculation treatments. There is a lot of help out there for men with PE, and now it's easier than ever to get that help."
