

InfoSecure PCI Policy Toolkit ready for PCI DSS v3.1 - Free Upgrades for Clients

InfoSecure announced that all customers will receive free upgrades to their PCI Policy Toolkit when PCI DSS version 3.1 is released in April 2015.

SEATTLE, WA, USA, April 4, 2015 /EINPresswire.com/ -- [InfoSecure](#), the leading provider of PCI policies and procedures, has just announced that when PCI DSS version 3.1 is released in April 2015, all past and current clients will receive the free upgrade. In fact, InfoSecure has always ensured that clients receive free upgrades to its policy documents without limitation.

The InfoSecure [PCI Policy Toolkit](#) helps organizations seeking to achieve compliance with PCI DSS. In January 2015, the Payment Card Industry Security Standards Council's Data Security Standard 3.0, became the law of the land for any organization that stores, processes, or transmits credit card information. This includes nearly all businesses that accept credit cards as a form of payment. Now, just four months later, the Security Council is releasing an out-of-cycle-update to the PCI DSS, version 3.1. This version provides important security updates to protect credit card information. Likewise, InfoSecure is responding with a professionally developed, QSA-written, update to its PCI Policy [Template](#).

InfoSecure's PCI Policy Toolkit is used by organizations throughout the world to achieve rapid compliance with the complex PCI Data Security Standard. This extensive PCI template package includes the following documentation:

- * Detailed PCI DSS overview that explains the importance of PCI DSS and how your organization can best comply with the standard
- * PCI DSS specific policies and procedures coded to exactly match the PCI DSS standards
- * User-level information security policy template
- * Security awareness training program that includes a slide deck, 16-minute video, tracking package, and more
- * Exclusive access to InfoSecure's multimedia-rich Learning Management System (<http://training.infosecurepci.com>)
- * ISO27K compliant Disaster Recovery, Business Impact Analysis, and Business Continuity template
- * ISO27K compliant Risk Assessment and Risk Treatment template
- * PCI DSS compliant Incident Response Plan with detailed procedures
- * Change management procedures and forms
- * PCI DSS policy matrix defining which requirements are applicable based on processing type
- * PCI DSS compliance dashboard for tracking compliance progress according to merchant/service provider type/level
- * Vendor management methodology and vetting process
- * Hardware and software configuration standards
- * Firewall review procedures and forms
- * Free consultation with a PCI-Qualified Security Assessor (QSA) to help you get started
- * 60 days of ongoing email support from a PCI-QSA

* Satisfaction guarantee with money back

The InfoSecure PCI Policy Toolkit is extensively documented and professional written. The source documents are provided in Microsoft Office format and can be instantly downloaded from <http://www.pcipolicytoolkit.com>
