

IT Governance offers Indian businesses 10% off ISO 27001 products and services

IT Governance Ltd is offering its customers in India 10% off its ISO 27001 products and services until 30 April 2015.

NEW DELHI, INDIA, April 23, 2015 /EINPresswire.com/ -- [IT Governance Ltd](#), the international provider of cyber security products, services and expertise, is offering its customers in India 10% off its [ISO 27001](#) products and services – including official standards and fixed-price [ISO 27001 Packaged Solutions](#) – until 30 April 2015.

ISO 27001 is the international standard for information security management, which sets out the best-practice requirements of an ISMS (information security management system) – a risk-based approach to information security that encompasses people, processes and technology to tackle security issues throughout the enterprise.

Founder and Executive Chairman of IT Governance, Alan Calder, comments on the reasons behind implementing the standard: “Accredited certification to ISO 27001 provides globally acknowledged proof that information security best practice has been adopted, which is why increasing numbers of Indian organisations are implementing the Standard”.

“

Accredited certification to ISO 27001 provides globally acknowledged proof that information security best practice has been adopted”

Alan Calder, founder and executive chairman of IT Governance

According to the latest ISO figures, certification to ISO 27001 increased nearly 20% in India year-on-year.

“The benefits of implementing the Standard are legion. As well as streamlining an organisation’s security processes and creating greater business efficiency, implementing an ISO 27001-compliant ISMS can support a host of legislative requirements, including the ‘reasonable security practices and procedures’ required by the IT Act 2008,” Calder continues.

Implementing an ISO 27001-compliant ISMS can, however, be a daunting drain on time and resources, which is why

organisations in India will welcome IT Governance’s 10% discount.

With their unique combination of standards, guidebooks, tools, training and consultancy, IT Governance’s fixed-price ISO 27001 Packaged Solutions makes it easy for any organisation to implement the Standard, whatever its budget.

If you want to take advantage of international best practice at a reduced price, you’ve only got till the end of the month to take advantage of this offer.
