

Registration Now Live for Shale Gas Environmental Summit

SMi is thrilled to announce that registration is now live to attend the 6th Annual Shale Gas Environmental Summit taking place on 26-27 October in London, UK.

LONDON, UNITED KINGDOM, April 29, 2015

/EINPresswire.com/ -- SMi is thrilled to announce that registration is now live to attend the 6th Annual Shale Gas Environmental [Summit](#) taking place on 26-27 October in London, UK.

The shale gas industry is an expanding field and could be a major industry providing thousands of jobs and growth for Britain and countries across Europe. Industry leaders and the government are all keen for this industry to begin in Britain - with oil and gas companies currently in application processes. However this industry is also highly controversial due to environmental and health concerns.

This [conference](#) will provide a balanced view of all sides of the debate surrounding the highly topical issue of shale gas. Speakers will range from the political and regulatory to land owners and NGOs and campaigners. This unique conference will also discuss the fledgling industry in Europe and will take a look at current EU regulations on shale gas.

To view the full programme or to download a brochure visit www.shalegassummit.co.uk/ein

CONFERENCE HIGHLIGHTS:

- Gain a balanced insight and understanding of the science behind the environmental debate on shale gas
- Assess the risks shale gas poses to health and human rights
- Learn about the landscape of the shale gas industry and gain insight into the regulatory developments in Europe and Britain
- Analyse the difficulties surrounding planning applications
- Debate the possibility of earthquakes and contaminated water
- Discuss how waste water can best be appropriately disposed of

KEY SPEAKERS AND EXPERTS INCLUDE:

- Julian O'Halloran, Journalist, BBC
- Professor Michael Bradshaw, Professor of Global Energy, Warwick Business School
- Professor Nigel Brandon, BG Chair in Sustainable Gas, Imperial College London & Panel Member, Task Force on Shale Gas
