

# InfoSecure's PCI Policy Template Supports PCI DSS Version 3.1 – Clients Urged to Download Free Updates

*PCI DSS version 3.1 has been released. Make sure your PCI policies reflect the updated rigor of the enhanced standard.*

SAN ANTONIO, TX, USA, May 4, 2015 /EINPresswire.com/ --

[InfoSecure](#), the leading provider of comprehensive [PCI](#) policy templates announced today that its PCI Policy [Toolkit](#) has been updated to reflect the changes in the Payment Card Industry Data Security Standard version 3.1. The updated standard, released in April 2015, includes important updates to address evolving security threats and vulnerabilities.

As a part of InfoSecure's continuing commitment to card data security, all clients are urged to log into the InfoSecure Customer Experience Portal and download the free update. The updated toolkit provides all of the changes necessary to comply with PCI DSS 3.1, and have integrated many other enhancements and improvements over the earlier release.

The April 2015 edition includes:

- IT Operational Policies
- Information Security Policy
- Incident Response Plan
- Risk Assessment and Treatment Templates
- Software Development Lifecycle Methodology
- Business Continuity Plans
- Disaster Recovery Templates
- Vendor Management Framework
- Hardware and Software Configuration Standards
- POS Inspection Framework
- Access to InfoSecure's Online Learning Management Systems (<http://training.infosecurepci.com>)
- All Forms
- PCI DSS SAQ Matrix
- 60 Days of QSA Support
- Money Back Guarantee
- Quick Start Guide
- Plus, the package provides access to Credit Card Discovery and Media Destruction Tools.

Clients receive full access to the Microsoft Office compatible source documents for easy customization.

The PCI Policy Toolkit can be immediately downloaded by merchants and service providers. There are no confusing options or packages from which to choose. The entire template package is available for only \$475 and includes lifetime free updates to future revisions of the product.
