

# Power Systems Global Report 2015 Released By The Business Research Company

*The Business Research Company's Power Systems Global Report contains the Market size of Power systems, Top company profiles including each company's overview...*

CANARY WHARF, LONDON, ENGLAND, February 22, 2015 /EINPresswire.com/ -- The Business Research Company's [Power Systems Global Report](#) contains the market size of power systems, profiles of top companies including each company's overview, revenue, geographies in which the companies are operating, company sales and distribution structure.

The global power systems market includes various types of power systems such as electric power generation systems, industrial power generators, oil and gas power systems and marine power systems. However the market sizing data covers only generators.

## Scope

- Examines and identifies key information and issues about power systems for business intelligence requirements
- The 15 company profiles contain business operations, distribution strategies, maintenance and service levels, prospects and latest distribution news

## Methodology

The Business Research Company reports utilize a wide range of secondary sources, including company websites, trade magazines, and market intelligence reports, which are analyzed and presented in a consistent and easily accessible format.

The Business Research Company strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

## Key findings of the report include:

"The generators market grew from \$10.1 billion in 2010 to \$17.2 billion in 2014, a CAGR of 14.2%.

The generators market has been growing due to growth in various sectors such as construction, infrastructure, technology and housing. Caterpillar dominates the global power systems market.

Caterpillar's Energy and transportation division had revenues of \$21.7 billion. EMEA held the largest share in the global generators market in 2013 accounting for 37%."

Countries covered in the report include: North America, Asia Pacific (APAC), Europe

Products mentioned include: Electric power generation systems, industrial power generators, oil and gas power systems and marine power systems.
