

# Magic Logix Releases New Marketo Plugin for WordPress

*MSync - Integrate Marketo Forms into WordPress, a plugin developed by Magic Logix*

DALLAS, TX, USA, May 12, 2015 /EINPresswire.com/ -- When it comes to forms and tracking, [Marketo](#) and [WordPress](#) can now live in harmony. [Magic Logix](#) just released MSync, a new plugin that allows forms to be created directly in WordPress and then connected with Marketo. These forms are pure PHP instead of JavaScript, and are secure.

Integrate Marketo Forms into WordPress, a plugin developed by Magic Logix

The plugin also makes strides in lead tracking, as lead data can now easily be modified, tracked and maintained. The end result is a streamlined process with a visceral user experience.

Businesses that utilize WordPress as a content management system can now take advanced actions on their lead data. Thanks to this plugin, the following is now possible:

- Modify lead data before sending to Marketo
- Track leads by embedding munchkin.js
- Change, drag/drop and add custom fields
- Push leads to Marketo
- Embed forms into posts, on pages and WordPress widget

Developed entirely in-house, the plugin meets the superior standard of quality upheld by Magic Logix, who is also a Marketo partner.

## About Magic Logix
