

MindLink's newest Integration Brings Enterprise Chat for Microsoft Lync to Citrix XenMobile

MindLink Enterprise Chat for Lync is Verified as Citrix Ready

LONDON, UNITED KINGDOM, May 13, 2015 /EINPresswire.com/ -- MindLink Software has announced that its MindLink Enterprise Chat solution for Microsoft Lync™ has joined the Citrix Ready® Program. The Citrix Ready program helps customers identify third-party solutions that are recommended to enhance Citrix mobility solutions to deliver mobile workspaces. MindLink completed a rigorous verification process to ensure compatibility with XenMobile, providing confidence in joint solution compatibility.

The Citrix Ready program makes it easy for customers to identify complementary products and solutions that can enhance Citrix environments. Customers can be confident that MindLink has successfully passed a series of tests established by Citrix, and can be trusted to work effectively with XenMobile in order to securely enhance collaboration and productivity in the office and on the move.

Citrix Worx Mobile Apps are a collection of apps that are built for business and include key features, such as data encryption, password authentication, secure lock and wipe, inter-app policies and micro VPNs. IT can find Citrix Worx Mobile Apps in the Worx App Gallery and deliver these apps to devices via XenMobile.

MindLink for XenMobile ensures Enterprise Chat for Microsoft Lync™ supports XenMobile's secure enterprise mobility management solution, offering a secure, mobile platform for teams to collaborate and exchange vital business information, knowledge files & data, real-time across the firm.

Being Citrix Ready complements MindLink's already existing support of other major MDM solutions and adds to its mission to provide highly secure & compliant chat tools to companies that want to combine mobility, collaboration & data security.

MindLink for XenMobile features include:

- Enterprise Chat collaboration within a secure corporate environment
- Strong enterprise security and compliance standards
- Supports iOS devices within XenMobile - iPhone and iPad

"We are pleased to have MindLink join the Citrix Ready program," said Siddharth Rabindran, senior manager, Citrix Ready program. "The Citrix Ready program gives customers the ability to choose and deliver the best mobile apps for their users with consistent mobile app security. By taking part in our program, MindLink has become part of the largest enterprise-ready mobile app ecosystem to support the increasing need in the enterprise to provide secure mobile apps built for business."

"Most organisations today have a robust mobile working strategy, empowering their workers to be productive wherever and whenever they need to be," said Annekathrin Häse, director of strategy and marketing at MindLink. "However, it is vital that whilst IT teams offer the workforce flexibility, they must not neglect security in terms of authentication, lock and wipe, or collaboration. This is why we are delighted to join the Citrix Ready program and provide a secure enterprise chat and collaboration

platform that is compatible with XenMobile, helping improve productivity for users without compromising on security.”
