

# FRAFOS Strengthens its Relationship with ShoreTel and Joins the ShoreTel Innovation Network

*FRAFOS an innovative developer of SBC and WebRTC solutions, announced that it has joined the ShoreTel Innovation Network.*

BERLIN, GERMANY, May 18, 2015 /EINPresswire.com/ -- [FRAFOS](#) an innovative developer of Session Border Control and WebRTC solutions, today announced that it has further strengthened its relationship with ShoreTel, the provider of easy to deploy and scale telephony systems and unified communication solutions, to become a member of the [ShoreTel Innovation Network](#).

The ShoreTel Innovation Network is a dedicated community of technology partners specially selected as having the knowledge and expertise to work in cooperation with ShoreTel to develop smarter solutions for unified communications and contact centres.

The FRAFOS [ABC SBC](#) is a highly flexible session border controller that protects enterprises and VoIP service providers deploying telephony services based on the Session Initiation Protocol (SIP). With its out of the box support for WebRTC, cloud deployments and its open interfaces, the ABC SBC offers enterprises and VoIP service providers with the needed intelligence for integrating web applications and support customized solutions. A free trial is available.

The ABC SBC represents the next generation in border control. Beside its scalability and small footprint the ABC SBC integrates session border control features with media applications such as recording and announcement services.

"It is our great pleasure to accept the invitation to the ShoreTel Innovation Network. It's important to us to enhance the trust of our customers by showing the interoperability of our products with a wide range of vendors. By partnering with ShoreTel, we are able to provide our clients with interoperable solutions that fit their business' unique," said Berthold Butscher, CEO, FRAFOS.

About FRAFOS GmbH:

FRAFOS was started in Germany by VOIP industry veterans and offers SIP session management, WebRTC and security solutions of the latest generation. The FRAFOS solutions come either as a standalone solution or as a cloud ready implementation. The ABC SBC enables VoIP operators to simplify their service infrastructure and prepares them for future challenges.
