Yotta Data Technologies Announces Enterprise Search and Big Data Analytics Platform

YottaSearch™ features Enterprise Search, Data Analytics and Dynamic Visualization

YDT Dynamic Dashboard - eDiscovery Email Search

CLEVELAND, OHIO, USA, May 18, 2015 /EINPresswire.com/ -- Yotta Data Technologies (www.yottadatatechnologies.com), an emerging global leader in developing affordable, easy to use information management solutions, today announced the release of YottaSearch™ (www.yottasearch.info), a versatile search and data analytics platform designed to be an intuitive Data Hub for global organizations of all sizes YottaSearch™ not only supports the rigorous requirements of today's next generation information management leaders, but organizations with limited people, time or technical resources as well.

YottaSearch™ brings together the most powerful and agile open source technologies available to enable today's demanding users to easily collect data, search it, analyze it and create rich visualizations in real time. From social media and email for Information Governance and eDiscovery to web and network server logs for Information Technology Operations Analytics (ITOA), YottaSearch™ provides the Big Data Analytics for users to derive information intelligence that may be critical to a project, case, business unit or market.

Platform

YottaSearch™ is easy – and budget friendly – to implement with a cloud-based, Software-as-a-Service (SaaS) delivery model and a disruptive, subscription-based pricing model.

Key Functionality of the YottaSearch™

* Data Point Connectors – Local, Network, Email, Enterprise Systems, Databases, Social Media
* File Crawlers – Detects & Parses over 1,000 file types
* File Indexer – Language Detection, Deduplication, Near Real Time, Distributed, Scalable
* Advanced Search Engines – Based on the high performance Apache™ Lucene™ library
* Data Analytics – Intelligent analysis of structured and unstructured data
* Dynamic Dashboards – Explore, analyze, navigate and define large volumes of complex data

Use Cases for YottaSearch™

* Enterprise Search and Analytics
* Information Governance
* IT Operations Analytics (ITOA)
* Investigations and eDiscovery
* Knowledge Management (KM)

* Internet of Things (IoT), Event & Log Data Analysis

Market & Industry

With an impact on businesses of all sizes, Enterprise Search is a market that was $1.7 billion in revenue in 2013 and will grow to an estimated $2.6 billion in 2017 at a compound annual growth rate of 11.2% (Gartner, 2014 Magic Quadrant for Enterprise Search).

"With the accelerating increase in the amount of Electronically Stored Information (ESI), CIOs from organizations of every size and industry are obviously seeking an affordable enterprise search and Big Data analytics platform that would enable their information management workers to easily analyze data and generate actionable business process that would have a significant financial impact," stated Charles Skamser, Yotta Data Technologies LLC President and Chief Revenue Officer (CRO).

"However, even though there have been some amazing advances in technology, the road to enterprise search and Big Data analytics has been paved with complicated technology, over budget projects and disappointing results," continued Mr. Skamser. "We believe that YottaSearch™ is the platform that finally fulfills the promise of easy to use next generation enterprise search and Bid Data analytics at an affordable price."

Yotta Data Technologies has been able to quickly develop YottaSearch™ into a competitive Enterprise Search and Big Data Analytics platform by leveraging the financial opportunities of open source technology and leading Cloud Service Providers (CSPs) and will offer it at extremely competitive price points to corporations, resellers, firms, agencies and partners worldwide.

YottaSearch™ is currently in limited release with Yotta Data Technologies inviting companies to email Get@YottaSearch.Info for consideration or further information regarding this release.
