

# Shatterproof wine glasses prepare wine buffs for summer fun says TaZa!

*TaZa releases their new Drama-free shatterproof wine glasses just in time for outdoor entertaining.*

NEW YORK, NY, USA, May 19, 2015 /EINPresswire.com/ -- Picnics, glass and bare feet don't mix, but that doesn't mean you have to drink your wine or cocktail out of a red plastic cup. TaZa!, a brand of [elegant, shatterproof wine glasses](#) is reaching out to the festive population of wine lovers just in time for the spring and summer season of outdoor entertaining.

"We've been busy showing the world there is a better way to entertain without the worry or apprehension of shattered glass near pools, patios, boats, decks or indoors," said Ashley Tomson of TaZa Design.

Taza's shatterproof barware is perfect for barbecues, weddings, camping, concerts or any other time a broken glass could ruin the mood. The 'glasses' are made of 100% Tritan plastic that provides the brilliance of a fine glass without sacrificing practicality for outdoor entertaining, and are dishwasher safe.

Wine aficionados will enjoy the unique design features such as:

- A crystal clear, elegant shape that is perfect for red or white wine, cocktails, water or juice.
- A flat bottom for stable placement on any surface
- A smooth contoured rim
- 100% BPA-free and EA-free design

The highlight of the glass is the "No Bubble-Bottom" feature. Other plastic wine glasses have a indented plastic bottom that makes them look and feel like cheap plastic. TaZa's smooth bottoms fool the eye and are elegant enough to serve at a dinner party.

Completely BPA-free and EA free, TaZa stemless wine glasses will not affect the flavor of fine wine. "Wine buffs no longer need to trade their top shelf glasses in for red solo cups when entertaining outdoors, TaZa glasses look and feel amazing," said Tomson.

Along with their other great features, [TaZa barware is dishwasher safe](#) and has a money-back guarantee.

"These glasses are impressive! My sister hates drinking out of plastic and so do I. They bought a house with a pool and needed glasses for poolside and these are perfect. They are thin, and the lip of the glass is so smooth! These might just be better than glass!" said one recent customer.
