Global Vision Announces the Release of DocuProof 3.1.0

This latest version of DocuProof takes text verification to the next level

MONTREAL, CANADA, May 20, 2015 /EINPresswire.com/ -- Global Vision, the world leader in the development of innovative proofreading technologies, today announced the release of a new version of its preeminent text verification solution, DocuProof 3.1.0.

Text Verification

Designed with enhancements that will dramatically ease the challenges that professionals face on a daily basis, DocuProof 3.1.0 will ensure the accuracy of packaging components, contracts, publications, and manuscripts, quickly and easily finding changes in fonts, sizes, deletions, inserts, spelling, and location. DocuProof also compares text in virtually any language and can even compare unlike files (graphic vs. word files).

"The latest enhancements to DocuProof are the result of highly focused conversations that we've had with our many customers. This release is centered on streamlining the copy related workflow resulting in a smoother creative flow and consistent error free copy," explained Reuben Malz, President of Global Vision. "DocuProof 3.1.0 takes text verification to the next level, and we are excited to share it with the world."

Enhanced feature set of DocuProof 3.1.0

Multilingual user interface
- Available in the following localized languages: French, Italian, German, Spanish, Japanese, Korean, Chinese (Simplified).

Functionalities
- Ability to drag and drop files into the main interface for loading
