

# IT Governance launches Live Online ISO 27001 Implementation training package

*IT Governance has launched a Live Online ISO 27001 Implementation training package in response to increased demand for its courses.*

ASHLAND, OHIO, USA, May 28, 2015 /EINPresswire.com/ -- [IT Governance](#), the global leader in ISO 27001 expertise, has launched a Live Online [ISO 27001 Implementation training](#) package in response to increased demand for its ISO 27001 Foundation and ISO 27001 Lead Implementer courses.

Alan Calder, founder and executive chairman of IT Governance, says, "Since we started the Live Online delivery of our signature ISO 27001 Foundation and ISO 27001 Lead Implementer courses, we have seen a tremendous rise in bookings. This is because of both the quality of the courses and the growing popularity of online training as a more convenient and cost-effective alternative to classroom training.

"Since both courses are part of the ISO 27001 Learning Pathway, some delegates prefer to attend both courses. Packaging these courses together enables us to simplify their choice, while offering them a significant discount for booking the package."

The four-day ISO 27001 Implementation training package provides a complete introduction to the requirements of ISO 27001 and the knowledge required to successfully lead the implementation of a best-practice information security management system (ISMS).

By successfully completing the two inclusive online exams, delegates will be awarded the following industry-recognized IBITGQ qualifications:

- Certified ISMS Foundation (CIS F)
- Certified ISMS Lead Implementer (CIS LI)

The course has been scheduled to run from 09:00 to 17:00

EDT/EST to allow delegates from across the USA and other parts of the world to attend.

Bookings can be made online at: [www.itgovernanceusa.com/shop/p-1476.aspx](http://www.itgovernanceusa.com/shop/p-1476.aspx).
