

TradeTec Launches Fixed Rate Labor & Freight Pricing Site for Trade Show Exhibits and More

The company's fixed rate pricing eliminates post-show billing associated with trade show exhibit rental in Chicago. Visit www.nopostshowbilling.com.

LOMBARD, IL, USA, May 28, 2015 /EINPresswire.com/ -- [TradeTec](http://TradeTec.com), a full-service exhibit studio located outside Chicago, IL, recently launched NoPostShowBilling.com. This site is full of information on the company's Fixed Rate Labor and Freight Pricing Program on [trade show displays](http://trade.show.displays).

"We have offered fixed rate pricing for the last seven years and it has proven to be very popular. More and more clients are choosing to do business with us to take advantage of the fixed freight and labor costs and no post-show billing platform. It is a unique selling proposition for clients who are consistently trying to stay within budget. This program helps give them the peace-of-mind they need in today's business climate," said Troy Trice, President of TradeTec Skyline (www.ttchicago.com).

TradeTec's Fixed Rate Labor and Freight Program gives trade show marketers the ability to manage their trade show funds more effectively, by eliminating post-show bills and add-on expenses. As experts in their field, TradeTec understands how to control costs and help obtain a predictable budget, in an often unpredictable environment.

The pre-show estimate offered from TradeTec enables companies to understand the total costs of labor and freight for their exhibit up front. This enables the client to allocate money for these costs ahead of time and enables the use of leftover funds for other marketing initiatives, show expenses, or unexpected surprises.

"Our vision is to be the easiest company in the exhibit industry to work with throughout the entire process, from early exhibit development to final delivery of the exhibit. It is our opinion that if we design and build the exhibit, we should be able to determine how much it will cost for installation and shipping," said Trice.

The NoPostShowBilling.com website includes real TradeTec client video testimonials about the fixed rate pricing model for trade show booths in Chicago as well as services received and performed from TradeTec. TradeTec is the only exhibit studio that offers a fixed rate model and no post-show billing program.

Visit www.nopostshowbilling.com to learn more about the program.
