

# Ohio Mesothelioma Victims Center Now Offers Unsurpassed Services Focused On Making Certain A Diagnosed Victim In Ohio Gets the Best Compensation via the Best Lawyers and Treatment Options

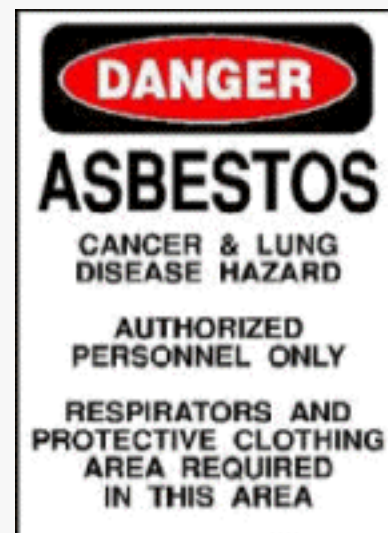

WASHINGTON , DC, USA, June 17, 2015 /EINPresswire.com/ -- The Ohio Mesothelioma Victims Center says, "If a diagnosed victim of mesothelioma, or their family members want on the spot access to the nation's most experienced mesothelioma lawyers who consistently get the best compensation settlements for their clients, or detailed information about treatment options please call us at 866-714-6466, and take advantage of our free unsurpassed services. Our passion is the best compensation, and treatment options for a diagnosed victim in Ohio.

"We also want to mention that the typical diagnosed victim of mesothelioma in Ohio was probably exposed to asbestos at a manufacturing facility, a power plant, as a plumber, mechanic, machinist, welder, an electrician, or while serving in the US Navy in the 1960's, 1970's, or 1980's. The average age of a diagnosed victim in Ohio is about 70 years old, and they could live anywhere in the state from Toledo, to Columbus, or Cleveland, Cincinnati, Youngstown, Dayton, or Akron.

"When is the last time you ever heard a cable TV ad about mesothelioma say we are 100% focused on the best possible compensation, the best possible lawyers to advance a mesothelioma compensation claim, or the best treatment options for this rare cancer? The answer is probably never. This is one more reason we are urging a diagnosed victim in Ohio, or their family to call us at 866-714-6466, because these are exactly the things that we do offer."

For the best possible mesothelioma treatment options in Ohio the Ohio Mesothelioma Victims Center strongly recommends the following three health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at each hospital.

\* Case Western Reserve University Cancer Research Center Cleveland, Ohio: <http://cancer.case.edu/>

\* Ohio State University Comprehensive Cancer Center Columbus, Ohio: <http://cancer.osu.edu/>

\* The Cleveland Clinic Taussig Cancer Institute Cleveland, Ohio:

Mesothelioma is a rare form of cancer that is attributable to exposure to asbestos.
