

CRG emPerform and Synerion Join Forces to Provide Complete Human Resources Management Technology

CRG emPerform & Synerion have joined forces to provide integrated performance and human capital management platforms.

OTTAWA, ON, CANADA, June 3, 2015 /EINPresswire.com/ -- Corporate Renaissance Group (CRGroup), a global firm that specializes in improving enterprise performance through innovative technology-driven solutions, and [Synerion](#), a Mississauga-based leading workforce management (WFM) solutions vendor, announced today that they have joined forces to provide complete HR technology solutions. This strategic partnership will leverage the industry-leading capabilities of [emPerform](#)[™], CRGroup's award-winning employee performance management suite, and the scalable workforce management solutions offered by Synerion. This alliance aims to provide integrated performance and human capital management platforms for effective planning, monitoring, scheduling and assessment of talent and performance.

"This partnership brings two leading solutions together. We are thrilled to be able to offer Synerion's workforce management solutions to accompany the functionality already present in emPerform," said Kris Kyritzopoulos, Director of Business Development & Partner Relations for emPerform. "We were looking for a human capital management technology partner that shared the same core values and customer centric culture as we do and Synerion is a great fit. This partnership will allow both companies to focus on what they do best while providing customers with complementary, proven technology to drive higher employee performance."

"Synerion is eager to continue to bring value to its customers. We are delighted with the shared values and vision of CRGroup and the opportunity to refer emPerform to our customers," stated Paolo Gilfillan, Director of Sales and Marketing for Synerion Inc.

emPerform comes standard with vital performance management tools such as automated appraisals, succession planning, pay-for-performance, goal alignment, 360° multi-rater reviews, performance reporting and real-time feedback. The workforce management solutions by Synerion provide scalable and accessible solutions for time and attendance, absence management, staff scheduling, labor costing, business intelligence, biometrics and data collection, as well as core HR functionality.

Both solutions offer scalable offerings for small to large organizations, with emPerform's Express[™] and Synerion's Agile Workforce[™] targeting small and medium-sized firms.

The emPerform and Synerion partnership will result in a seamless data syncing process between both systems. The result is an uninterrupted flow for initiating, delivering and tracking employee performance and feedback against scheduled time and development initiatives, eliminating any requirement for duplicate data entry when staff information is added or changed.
