

For A Diagnosed Victim Of Mesothelioma In Rhode Island The Rhode Island Mesothelioma Offers Instant Access To The Nation's Most Experienced Lawyers With The Goal Better Compensation

WASHINGTON, DC, USA, June 25, 2015 /EINPresswire.com/ -- The Rhode Island Mesothelioma Victims Center says, "Tragically mesothelioma happens in Rhode Island, and if a diagnosed victim, or their family are concerned about the best possible compensation, or treatment options we are urging them to call us anytime at 866-714-6466 so we can immediately get them in contact with the nation's best lawyers who specialize in the best possible compensation, and the region's top medical specialists.

"We don't want a person with this rare form of cancer, or their family to make easy to make mistakes that put them on the path for less than acceptable treatment options, or unacceptable compensation. We also want to emphasize the treatment, and compensation process must begin simultaneously for the best possible results, as we would like to explain. <http://RhodeIsland.MesotheliomaVictimsCenter.Com>

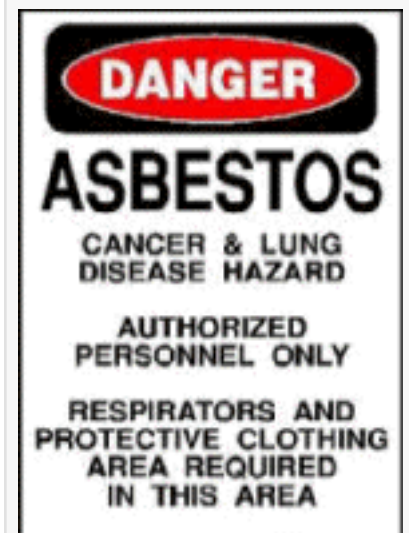

For the best possible mesothelioma treatment options in Rhode Island the Rhode Island Mesothelioma Victims Center strongly recommends the following health care facility with the offer to help a diagnosed victim, or their family get to the right physicians at this hospital.

* The Miriam Hospital Providence, Rhode Island:
<http://www.miriamhospital.org/services/decof-cancer-center.html>

The Rhode Island Mesothelioma Victims Center wants to emphasize their unsurpassed free services are available throughout Rhode Island in all communities including Providence, Warwick, Cranston, or Pawtucket.

According to the US Center for Disease Control the average age for a diagnosed victim of mesothelioma is 72 years old. Frequently victims of mesothelioma are initially misdiagnosed with pneumonia. This year between 2500, and 3000 US citizens will be diagnosed with mesothelioma. Mesothelioma is attributable to exposure to asbestos.

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West

Washington, and Oregon.

High risk work groups for exposure to asbestos in Rhode Island include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, manufacturing, or industrial workers, plumbers, electricians, auto mechanics, machinists, miners, or construction workers. Typically the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.
